PHOTOGRAPHY 3RD PRIZE: Rhino Extinct by Jack Kenner

by [Jon Norris](http://art4apes.com/author/nonnyjorris/) (<http://art4apes.com/author/nonnyjorris/>) on October 30, 2015 (<http://art4apes.com/photography-3rd-prize-rhino-extinct-jack-kenner/>)

Black and white giclee depicting the rhino extinction going into the negative space.

There is a rhino poached every 7.5 hours. Why? Because rhino horn is worth more than gold. The people of Asia believe it has magical powers when in truth it is nothing more than keratin, the stuff fingernails and hair are made from. I have been photographing and lecturing about protecting animals since 1989 and today if we don't educate the world the rhino will be extinct from the wild in six years. As a photographer, I have seen too much. PLEASE SAVE THE RHINO.
